MUNKEN PREMIUM CREAM

•

We are still able to read books that were printed hundreds of years ago thanks to high quality paper used. Munken Premium Cream has been inspired by that genuine quality and is intended to be kept for many future generations. Munken Premium Cream is a cream shaded, woodfree, uncoated paper with a natural surface that provides excellent readability. The paper is suitable for both black and white and 4-colour print and is ideal for all intricate, beautiful and exclusive printed matter. Munken Premium Cream comes in various bulks and grammages and is available in both sheets and reels. There is also a white shaded version: Munken Premium White. Munken Premium Cream standard products are available as FSC™ – The mark of responsible forestry. www.fsc.org. FSC-C022692 and PEFC certified.
